Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 December 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of invention of Group I (claims 1-28 and 35-40) and species of Figure 3 in which claims 1, 3 and 6 are readable thereon, in the reply filed on December 28, 2004 is acknowledged.

The traversal is on the ground(s) that "elected claim 1 is generic to remaining Group I claims 2, 4-5, 7-28 and 35-40. This is not found persuasive because while claim 1 is generic to the disclosed species, claim 1 is not generic to the remaining claims in Group I invention.

The requirement is still deemed proper and is therefore made FINAL.

Claims 2, 4-5, 7-44 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention/species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on December 28, 2004.

Drawings

The drawings are objected to because :

In Fig. 2, reference numeral "130" should be changed to --116--. In Fig. 8, reference numeral "170" should be changed to --171--.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure

Art Unit: 2824

must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claim 3 is objected to because of the following informalities:

In claim 3, line 5, "is" should be deleted.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of

Art Unit: 2824

2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1, 3 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Bill et al. (US Pat. 5,675,537 hereafter "Bill"). See Figures and Abstract.

Claims 1, 3 and 6 are rejected under 35 U.S.C. 102(e) as being anticipated by Harari (US Pat. 6,570,790 hereafter "Harari"). See Figure 11e. Note that although Fig. 11e appears to refer to "programming", the terms "programming" and "erasing" are used interchangeably in the nonvolatile semiconductor memory art. See also col. 26, ln. 21-25.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ban et al. (US Pat. 6,469,931) describes a method for increasing information content in a computer memory.

Chevallier (US Pub. 2003/0048664) describes an erase verify method for a non-volatile memory.
